RAD 2012 is an international conference on radiation and radiation dosimetry in various fields of research organized by:

🌐 Faculty of Electronic Engineering,
University of Niš, Niš, Serbia

in cooperation with:

🌐 Tyndall National Institute,
University College Cork, Cork, Ireland

🌐 Jožef Stefan Institute, Ljubljana, Slovenia

supported by:

🌐 European Commission via FP7 Project:
Joint Research on Various Types of
Radiation Dosimeters (RADDOS)

🌐 Ministry of Education and Science
of the Republic of Serbia

THE AIM of the Conference is to provide the forum for researchers and professionals involved with radiation and radiation dosimetry to exchange and discuss their findings and experiences. The fields covered by the Conference are physics, electronics, medicine, biology, environmental protection, and any other areas related to ionizing and non-ionizing radiation and their detection. The Conference program includes topical invited lectures, limited number of oral presentations, and poster presentations. Official language of the Conference is English.
